

Product Description

Thymox CO is an innovative powerful botanically-derived disinfectant with broad-spectrum efficacy. Built on 10 years of science, our patented formulation delivers highly efficient and stabilized antimicrobial power of thymol to kill pathogens on contact.

Thymox CO is a DIN-registered Concentrate Disinfectant, with demonstrated efficacy. Thymox CO kills 99,99% of bacteria, fungi and viruses*.

DIN 02390043

Contact time: Disinfection 3 min
Sanitization 30 sec

Listed for use against Coronavirus

This product have demonstrated effectiveness against human coronavirus strain 229E and is expected to inactivate the SARS-CoV-2 (the virus that causes COVID-19).

It is included in Health Canada *List of hard-surface disinfectants for use against coronavirus (COVID-19)*.

Active ingredient

Thymol 7,67%
(0,23% once diluted)

Product Properties

Appearance: Clear, transparent liquid

Odor: Thyme and citrus scent

Shelf Life: 1 year

pH : 4-6

Flammability: Non flammable

Packaging

Bulk formats:

200L

1000L

Patented Formula

CA 2720738

- Biodegradable
- Non-toxic and non-irritating once diluted
- One-Step Cleaner and disinfectant
- Broad-Spectrum: Bactericide, Fungicide, Tuberculocide, Virucide*

Direction for use

GENERAL USE – ANY TYPES OF HARD SURFACES:

Dilution: Use Thymox CO at 3% v/v, or 3L of product per 97L of water for a final volume of 100L. Once diluted, the product can be kept for up to 12 months in a tightly closed container, at room temperature.

Disinfectant: vaporize or apply using a clean wet cloth in order to saturate the surfaces** and leave in contact with the surface to be disinfected for 3 minutes***.

Sanitizer: vaporize or apply using a clean wet cloth in order to saturate the surfaces** and leave in contact with the surface to be sanitized for 30 seconds***.

Cleaner/Deodorizer: Thymox CO can be used as a detergent (3%). Vaporize or apply using a cloth** and wipe with a clean cloth; rinse if needed.

If there is a dirt build-up on the surfaces, they must be cleaned prior to disinfecting or sanitizing. Avoid contamination of food. For surfaces and/or objects that may come into direct contact with children at the mouthing stage of development, a rinse with potable water is recommended.

**It is recommended to test in an inconspicuous area. Use in a vented area.

***After application on the surfaces, wipe THYMOX EXT using a clean cloth if desired, no need to rinse. **Surfaces coming into contact with food must be rinsed after disinfecting.**

Eliminates 99.99% of the following microbes:

Bactericide: *Pseudomonas aeruginosa*, *Salmonella enterica* (*choleraesuis*), *Staphylococcus aureus*, *Escherichia coli* (*E. coli*), *E. coli* O157:H7, *Methicillin Resistant Staphylococcus aureus* (MRSA), *Vancomycin Resistant Enterococcus* (VRE), *Listeria monocytogenes*, *Streptococcus suis*, *Klebsiella pneumoniae* – NDM-1 positive

Tuberculocide/Mycobactericide: *Mycobacterium terrae*

Fungicide: Pathogenic fungi, *Trichophyton mentagrophytes*, *Candida albicans*.

***Virucide:** Influenza A, HIV-1 (Human Immunodeficiency Virus), Human Coronavirus, PRRSV (Porcine Reproductive & Respiratory Syndrome Virus)
